

COLE ASSOCIATES SECURES GROWTH FUNDING FOR BOWDON GROUP

August 2014

David Middleton, partner at Cole Associates Corporate Finance, secured growth funding for Bowdon Group from the North West Fund for Loans, managed by FW Capital.

Bowdon Group is a group of companies located in the North West that provide support services to the engineering and construction sectors. It was established in 2008 by Brian Benson and has since grown rapidly both organically and by acquisition.

Bowdon Group's activities are divided into two core areas:

Bowdon Services: specialising in electrical and mechanical installation, repair and maintenance services. Companies include Ford Mainwaring, JJ Harrison, Sema Services and Syncro Fire and Security Systems.

Bowdon Industries provide quarrying, drilling, crushing and industrial recycling services. Skelair International is recognised as a market leader in the quarrying sector providing a complete maintenance and engineering support service.

Bowdon Group expects to see continued growth over the next few years and is actively looking at further acquisition opportunities that will enable it to grow and expand its range of services.
